

UHF Laundry Tag

The Laundry tag has been especially designed for applications requiring a rugged transponder that can withstand harsh environments. This transponder meets all requirements in terms of heat, pressure and chemical resistance as needed in applications of RFID tracking of garments in the textile rental/lease and laundry industries.

UHF EPC Global Gen2

- UCODE G2XM chip

<i>Dimension</i>	Diameter 14 mm (±0.3mm)
	Thickness 4mm
Material	Polycarbonate
Reading Distance	Depending on the reader design and local installation conditions
Operating Temp.	-20 °C ~ + 110 °C
Storage Temp.	-30 °C ~ + 120 °C
Standard Colour	Pink, Green, Blue
Applications	Solid, waterproof product, resistance against crunching and chemical stress
Packaging	100pcs/ bag, or customized
